

GET WARRANTY PARTS REIMBURSEMENT AT RETAIL MARK-UP

**We Prepare More Retail Parts Submissions
than Any Other Firm in the Country**

Why leave money on the table? Receive the benefit of recently enacted legislation by retaining the premier law firm in warranty parts reimbursement. Although you no longer have to fight in court for it, the law does require that you take affirmative action to claim the money your manufacturer owes you. That's where Bellavia Blatt comes in. For a low flat fee, we'll conduct the statistical analysis and prepare a proper submission—one that will withstand objections from manufacturers and yield a higher mark-up than you can achieve yourself.

Beware of other firms who will charge a fee AND take a percentage of your recovery. We charge a low flat fee and, because we're a law firm, are able to address any legal issues that might arise concerning your claim. Your manufacturer need not know that you have retained us.

Do not let one more month go by without getting what you're owed!
Call Christopher Forgione, Warranty Parts Reimbursement Specialist, at 516-873-3000.
