## New & Noteworthy Personal Injury Results

**\$5.5 Million** result for pain and suffering. Facts: A young patient in a health care facility required multiple surgeries and the insertion of a feeding tube in his abdomen. We established that the need for the surgeries and feeding tube was the fault of the health care facility's negligent care of this patient.

**\$3.2 Million** result after trial verdict and all appeals for pain and suffering, lost wages, and medical care. Facts: A police officer driving his SUV patrol car on a beach ran over a middle-aged sunbather causing multiple crush injuries requiring multiple neck surgeries and an inability to work at his usual employment. We established that the incident was entirely the fault of the police officer.

**\$2.8 Million** result at trial for pain and suffering. Facts: A factory worker suffered disfiguring injuries to his dominate right hand while cleaning a machine at work. We established that the machine was defectively manufactured.

**\$2.4 Million** result at trial for wrongful death and loss of economic support for family members. Facts: A private sanitation worker at a dump site was stricken and killed by an earth moving vehicle resulting in instantaneous death. We established that it was entirely the fault of the driver of the earth moving vehicle.

**\$1.5 Million** result at trial for pain and suffering. This result was reported and highlighted in the National Law Journal. Facts: Unemployed Tenant fell down a flight of cement steps in the apartment building where he lived. Tenant suffered injuries to his back. We established that the fall was the result of the Landlord's failure to properly paint the steps and that Tenant suffered serious back injuries.

**\$1.5 Million** result at a pre-trial settlement conference for pain and suffering and lost wages. Facts: A construction worker injured his shoulder as the result of a fall while descending from a ladder at a construction site. We established that the ladder was not properly secured and therefore a violation of the New York State Industrial Code.

**\$1.4 Million** result at trial by jury verdict for pain and suffering and reduction in earnings. Facts: A construction worker injured his wrist, knee and back while standing on the back of a truck when a crane operator allowed the counter-weight to brush against the construction worker. We proved that violations of the New York State Industrial Code caused the counter-weight to brush against the worker and injure him.

**\$1.2 Million** result at mediated settlement for pain and suffering and lost wages. Facts: A construction worker injured his back moving a garbage container down a ramp when the container slipped off the ramp. We proved that the ramp was not built in full compliance with the New York State Industrial Code.

**\$925,000** result at underinsured arbitration. Facts: On duty Police Officer injured his neck as the result of being the victim of a rear-end automobile collision.

**\$775,000** result at underinsured arbitration for pain and suffering and lost wages. Facts: On duty Police Officer injured his neck as the result of his police cruiser being stricken by an automobile that disregarded a stop sign.

**\$750,000** result at settlement of underinsured arbitration for pain and suffering and lost wages. Facts: On duty Police Officer injured his neck as the result of his police cruiser being stricken by an automobile.

**\$700,000** result at a mediated settlement for pain and suffering. Facts: A construction worker fell two floors into the basement injuring his back and suffering a concussion and a collapsed lung. We proved that the general contractor failed to install a protective barricade.

**\$615,000** result at pre-trial settlement conference for pain and suffering. Facts: On duty Police Officer suffered serious injuries to his back when his police cruiser was stuck by another motor vehicle. We proved that the police officer had the right of way as the other driver did not yield the right of way after stopping at a stop sign.

**\$600,000** result at a mediated settlement for pain and suffering. Facts: Driver was stopped at red light and rear ended by another vehicle. Driver suffered serious neck injuries.

**\$775,000** result from a negotiated settlement for pain and suffering. Facts: Driver's automobile was hit by tractor trailer. We contended that the tractor trailer driver fell asleep.

**\$350,000** result from a mediated settlement for pain and suffering. Facts: Construction worker injured his ankle at a construction site when he stepped into an unguarded hole.
